Type of Meeting: Sprint Meeting
Date: Friday, March 14, 2025
Time: 1:30 pm
Location: Grey Nuns Study Room

Attendees:

- **Scrum Master:** Alex

- **Secretary:** Paria

- **Product Owner:** Henny

- **Development Team:** Zack, Ulysse, Elliot

Absentees: none

Call to Order:

The meeting was called to order by **Alex (Scrum Master)** at 1:30 pm.

Agenda Items & Discussion Points:

1. **Feature Updates & Progress Reports**

    o **Elliot (Backend)**: Completed backend functionality for handling invite requests. The system includes a database table to track:

        ▪ The person sending the invite request

        ▪ The person receiving the invite request

        ▪ The approver (who accepts or denies the request)

        ▪ Load invites functionality needs implementation to display invite requests.

    o **Henny (Backend)**: Working on adding a column in the database for **timestamp tracking**, which will show **user presence status** (online, offline, away).

- **Ulysse (Frontend)**: Implementing UI components related to Elliot's backend work, including **buttons for invite handling**.

- **Zack (Testing & Backend)**: Focusing on **acceptance testing** and adding a feature to allow **complete user deletion**. This feature is expected to be completed by the **end of the weekend**.

- **Alex (Backend & UI)**: Developing the **emoji feature** to ensure users can send and receive messages with emojis properly formatted and stored in the database.

- **Paria (Project Organization & Development)**: Worked on **GitHub organization** and will contribute to **quoting messages, timestamp implementation, or starting work on a new feature**.

2. **New Feature Discussion:**

   - A new feature needs to be implemented outside of the professor-assigned tasks. Suggestions include:

     - **@all and @everyone mention feature** to notify all users in a channel.

     - **Image attachment feature** for messages.

3. **Work Log Improvement:**

   - Based on **TA feedback**, the team needs to **improve the work log** and ensure proper documentation of progress.

4. **General Discussion:**

   - Brief casual discussion about the **nice weather, hiking, and mountains** before moving back to agenda items.

Votes & Decisions:

- **New Feature Selection:** The team did not fully decide on the new feature. Item will be discussed at the next meeting.

- **Work Log Adjustments:** The team agreed to make necessary improvements based on TA feedback. The team will log every time that they work on the project.
